

About HealthLynked Corp.

We are a healthcare tech firm using AI to bridge gaps between patients, providers, and data. Our business spans Digital Healthcare, Health Services, and Medical Distribution. Providers in our network gain access to features that enhance efficiency and patient outcomes.

HealthLynked At a Glance.

Digital Healthcare

Our cloud platform enables seamless connections with healthcare providers and gives members unmatched control over their medical records.

Health Services

Our division tests innovative healthcare products in clinical settings, refining offerings. Profits from this are reinvested into developing our advanced healthcare software.

Medical Distribution

Using cutting-edge virtual distribution, we efficiently supply discounted, high-quality medical items, meeting healthcare provider and patient needs while streamlining healthcare delivery.

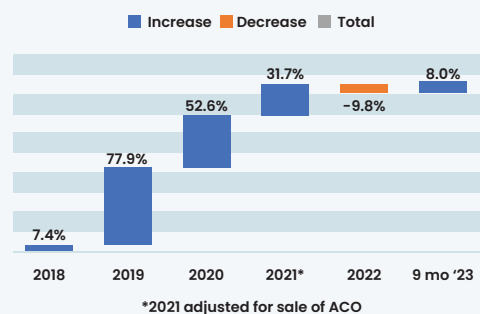

Investment Highlights:

1. **Pioneering Solutions:** AI-driven tech improves patient outcomes and reduces costs.
2. **Growth Strategy:** Track record of organic growth and value-added M&A supports financial stability.
3. **Expert Leadership:** Our team brings deep healthcare and tech expertise.
4. **Diverse Portfolio:** Multiple revenue streams from digital services to medical distribution.
5. **Unique Tech:** Patented innovations provide a competitive edge.
6. **AI Innovation:** Cutting-edge AI features distinguish us in the market.
